Unique Features That Make Timeslips the Leader

Timeslips 2005 provides many unique features that other time and billing products don't offer.

- **NEW!** Two-way integration with Microsoft® Outlook®* turns time spent on tasks, e-mails and more into billable entries in Timeslips 2005.
- **IMPROVED!** The intuitive drag and drop bill design tool makes it easy to create custom bills.
- Timeslips Today™ is a customizable snapshot of your entire billing cycle. Bring everything you need to know together on one screen for easy reference!
- Making updates to multiple records is easy! You can easily change a billing rate, task date, or a client's bill format and all related records are updated.
- While other products have limits, Timeslips 2005 allows up to 25,000 timekeepers, clients and task names.
- Custom fields allow you to track every detail that's important to you. Create up to 30 custom fields for client, timekeeper and task names.
- Dozens of preference settings let each user tailor Timeslips to the way they work. Change program-wide terminology; create custom categories; set default values, and even turn off features that you don't use.

* Outlook integration requires Microsoft Outlook 2000, 2002 or 2003.

Timeslips Customer Support

To ensure you're fully prepared to get the best results from your use of Timeslips 2005, there's no better choice than the Timeslips Billing Assurance Plan. This customer support plan gives you unlimited access to highly trained support specialists. There are no limits to the number of calls,* e-mails or the amount of time you use during the year. The Billing Assurance Plan is very affordably priced and includes everything you need to help ensure that your bills go out on time, every time. Please call 800-285-0999 or visit www.timeslips.com/default.asp

Timeslips 2005 Training Guides

Whether you're just starting out on Timeslips or are seeking to take full advantage of the more advanced features of Timeslips 2005, our training guides can help you! Timeslips provides hands-on training guides to help you learn Timeslips 2005 in a user-friendly format. For complete information regarding our guides please call 800-285-0999 or visit www.timeslips.com/support/training/default.asp

Timeslips Certified Consultants

Timeslips Certified Consultants are independent computer consultants who have passed our comprehensive examination process on the implementation and usage of Timeslips products and services. A Timeslips Certified Consultant can assist you with setting up and customizing Timeslips, as well as providing staff training to ensure that you get a time and billing system tailored to meet your firm's specific needs. To find a Timeslips Certified Consultant near you, please visit www.timeslips.com/consultant

Timeslips Add-on Solutions & System Requirements*

Remote Solutions

Timeslips offers remote solutions for customers who want to take advantage of Timeslips away from their desktop.

Timeslips Remote™ is a standalone version of the time and entry portion of Timeslips that's ideal for laptop users. TimeReporter® for Palm™ devices make it easy to create time and expense entries away from the office and then quickly integrate them with your Timeslips main billing computer.

Timeslips eCenter

Anyone with access to an Internet-connected computer can now create Timeslips time and expense slips. A fast, simple interface that maintains the familiar Timeslips design makes time and expense entry easy. A free trial version is available at www.timeslipsecenter.com

Electronic Billing Solutions

Many clients prefer—or even require—that they receive their bills in predefined electronic formats. Timeslips Electronic Billing solutions can easily transform Timeslips-generated bills into a number of different industry standard formats, including LEDES, and Bill Auditing standard interfaces such as TyMetrix, Litigation Advisor and more.

Networking Features

You can purchase the standard edition of Timeslips 2005 and additional network stations for each networked computer in your office, or purchase the Timeslips 2005 Multi-User Value Pack with either five networked licenses or ten networked licenses for the best value. Unique, detailed security profiles may be set for each user and audit trails show the date and time of any action performed by the timekeeper who was logged into the database.

System Requirements

- **Customer registration and acceptance of the license agreement for Timeslips Software is required.**
- Windows 98 SE, Windows 2000 with SP 1 or 2, or Windows XP.
- IBM PC Compatible with 333MHz Pentium Processor; AMD or compatible processor; 400 MHz or higher compatible processor recommended.
- 128 MB of RAM; 256 MB recommended.
- 160 MB free hard disk space (excluding your database); 30-50 MB additional for database.
- CD-ROM Drive, 4X recommended.

- 256-color VGA display 800 x 600 resolution, 1024 x 768 is recommended.
- IBM PC compatible keyboard, mouse and printer.
- Network connectivity requires a network adapter appropriate to the type of network to which you are connecting. Highest quality network hardware is recommended.
- E-mail bills feature requires a MAPI-compliant e-mail program such as Microsoft Outlook or Outlook Express. Not compatible with AOL e-mail.
- Outlook integration requires Microsoft Outlook 2000, 2002 or 2003.
- Internet connection of 14.4 KBps or higher is required to utilize Timeslips Web features.
- Sound card and speakers recommended.

*Additional fees may apply.
